Welcome Message from the President

It is great pleasure and honor to introduce the 24th Annual Congress of the Hong Kong Society for Surgery of the Hand to you. The theme of this congress in 2011 will center on Upper Limb Problems in Sports. We are honored to have invited 4 eminent surgeons in this aspects – Dr Mark Baratz from Pittsburg USA, Dr Greg Bain from Australia, Dr Jiang from Beijing China and Dr Babhulkar from India. We are also in the process of inviting our therapist speaker with expertise in this field.

As our society progresses, sports injury is gradually taking over industrial accidents as a significant contribution to problems in the upper extremities. We hope that through a conjoint effort with the Hong Kong Jockey Club Sports Medicine and Science Centre, we can provide a good platform for knowledge interflow in this relatively new realm of Hand and Upper Extremities Surgery.

Besides the Main Congress, we have a whole week packed with nurse symposium, workshop, therapist symposium and surgical demonstration. You are most welcome to join. For details, please visit our website at www.hkssh.org for more details.

Last but not least, 2011 marks the 25th Anniversary of our Society. There will be a great social event of us to celebrate and acknowledge to the devotion and contribution of our pioneers of hand surgery in Hong Kong.

甘敬堃

Dr Alexander K Y Choi

President

Hong Kong Society for Surgery of the Hand

Hong Kong Society for Surgery of the Hand
